EDUCATION

Sri Shakthi Institute of Engineering and Technology

B.E. Computer Science and Engineering (CGPA - 7.77)

Coimbatore, India

2023 – 2027

MGV Global Academy School and Junior College

Higher Secondary (12th), ISC Board

Tirupur, India

2021 – 2022

WORK EXPERIENCE

Full Stack Developer Intern

Jul 2025 – Sep 2025

Casual Clothings Fashion Pvt Ltd, Tirupur (Remote)

- Developed **Admin Dashboard modules** of a production eCommerce platform using the **MERN stack**, including Order, Return, and Bundle Management systems.
- Implemented end-to-end **return and refund workflows** with approval logic, real-time status tracking, and robust backend validation integrated with frontend state management.
- Built **Bundle Management features** supporting dynamic combo creation, pricing rules, and synchronized inventory updates across multiple products.
- Designed scalable **React-based admin UIs**, integrated RESTful APIs, collaborated on API contracts, and implemented **Razorpay payment verification** for the live platform: casualclothings.shop.

Freelance Full Stack Developer

Jan 2024 – Dec 2025

Multiple Startup Clients (Remote)

- Delivered **4+ production-ready MERN applications** for early-stage startups, owning end-to-end development from requirements gathering to deployment.
- Built scalable backend services and responsive React UIs, including authentication, admin dashboards, payment workflows, CRUD systems, and real-time features with optimized REST APIs.

PROJECTS

FlashChat – Real-Time Chat Platform (React.js, Tailwind CSS, Socket.IO, Node.js, Express.js, Redis)

[GitHub](#) — [Live](#)

- Designed a real-time chat platform with **low-latency**, bidirectional messaging using Socket.IO and WebSockets.
- Implemented **Redis-backed** ephemeral messaging with automatic room expiration and memory cleanup after 10 minutes of inactivity to optimize server resource usage.
- Built admin-moderated chat rooms with join approval, user removal, real-time presence tracking, and **geo-based room** discovery using the Browser Geolocation API (**10–15 km radius**).

DataCue – AI Analytics Platform (React, Python, FastAPI, PostgreSQL, SQLAlchemy, Groq & Gemini LLMs, Plotly) [GitHub](#)

- Built a full-stack analytics platform enabling natural language queries on CSV/Excel data, generating SQL and dashboards automatically, reducing analysis time from hours to seconds.
- Designed a FastAPI backend with async processing and **LLM-based SQL generation** (Groq → Gemini fallback), integrated with PostgreSQL and secured using JWT authentication.
- Built a responsive React analytics dashboard with interactive Plotly visualizations, optimized using efficient PostgreSQL queries.

TypoMaster – Typing Speed Analyzer (React.js, Tailwind CSS, Node.js, Express.js, MongoDB, SSE)

[GitHub](#) — [Live](#)

- Built a full-stack MERN typing test application with real-time WPM/accuracy tracking, and REST APIs for users, analytics, and leaderboards.
- **MongoDB aggregation pipelines** and interactive dashboards to analyze performance trends and generate global rankings with time-based filters.
- Implemented **Server-Sent Events (SSE)** for continuous live metric streaming.

TECHNICAL SKILLS

Programming: Python, JavaScript.

Web Technologies: React.js, Redux, Tailwind CSS, Node.js, Express.js, FastAPI, REST APIs, HTML, CSS, MongoDB, SQL, PostgreSQL, Redis, WebSockets, Server-Sent Events (SSE).

Data Science: scikit-learn, NumPy, pandas, Plotly.

Tools/Platforms: Git, GitHub, Postman, REST Client, Vercel, Netlify, VS Code.

CERTIFICATES & ACHIEVEMENTS

- Node.js, Express, MongoDB (Udemy 2025); Machine Learning A-Z (Udemy 2025); Python Essential Training (LinkedIn 2024).
- Selected in the **Top 100 out of 5000+ participants** at the TruthTell Hackathon (2025), recognized for innovation.
- Selected among the **Top 16 out of 500+ participants** in the ML CBE Hackathon, developed solutions using ADK and Gemini API.
- Solved **1500+ Data Structures and Algorithms problems** across multiple coding platforms, demonstrating strong problem-solving and analytical thinking.
- Achieved a **LeetCode Contest Rating of 1841**, ranking in the **Top 5.16% globally**, showcasing competitive programming excellence.
